On a plot of approx. 250m² we offer you a passive house under construction of approx. 160m² built with ecological materials, less pollutants and, therefore, with lower energy needs compared to other constructions. This semi-detached house provides a cozy and excellent comfort to its inhabitants.

The house is built on three floors, with a ground floor destined to an open space with a living-dining-kitchen area and a guest toilet.

On the first floor there are four double bedrooms with two complete bathrooms (one of them en suite). The master bedroom also has a large dressing room.

For the basement, designed as a multifunctional space, a complete laundry and machine room is proposed, together with a large cinema area, games room or gymnasium, for example.

For the outdoor area there is a parking space and a private swimming pool surrounded by green areas.
